Hi Ex. 4 - CBI

Apologies for the delay, I was not copied on your request. A contract modification is required in order to formally authorize the use of over time. Since I will not be able to issue the modification until Monday morning, this email serves as written CO approval of the use of overtime from February 4-5, 2012 (not to exceed 26 hours). I would also appreciate receiving a dollar estimate to accompany the hour estimate for laboratory support and data validation support. Thank you!

To be modified:

52.222-2 Payment for Overtime Premiums.
Payment for Overtime Premiums (July 1990)

(a) The use of overtime is authorized under this contract if the

overtime premium does not exceed * _____ or the overtime premium is paid for work—

(1) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(2) By indirect-labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(3) To perform tests, industrial processes, laboratory procedures, loading or unloading of transportation conveyances, and operations in flight or afloat that are continuous in nature and cannot reasonably be interrupted or completed otherwise; or

(4) That will result in lower overall costs to the Government.

(b) Any request for estimated overtime premiums that exceeds the amount specified above shall include all estimated overtime for contract completion and shall—

(1) Identify the work unit; e.g., department or section in which the requested overtime will be used, together with present workload, staffing, and other data of the affected unit sufficient to permit the Contracting Officer to evaluate the necessity for the overtime;

(2) Demonstrate the effect that denial of the request will have on the contract delivery or performance schedule;

(3) Identify the extent to which approval of overtime would affect the performance or payments in connection with other Government contracts, together with identification of each affected contract; and

(4) Provide reasons why the required work cannot be performed by using multishift operations or by employing additional personnel.

Very Respectfully,

Helen Britz

Please accept this email as Lockheed Martin's request to work additional hours over the weekend to support the high priority and fast turn-around time data that are in house for both laboratory and data validation task areas. We estimate that it will require
